How to Use This Kit

This kit is built to be practical. It is not a book you read once and put on a shelf · it is a workspace you return to again and again as your wedding approaches. Print the worksheets, fill them in together, and let them guide your conversations with each other, your families, and your vendors.

Your planning desk · where ideas become a wedding.

How to Navigate the Worksheets

Each section builds on the last, but you do not need to complete them in order. Start with Chapter 1 (Priorities) to get aligned on the big picture. Then move through the Timeline and Checklist to break the work into manageable pieces. Use the Budget and Responsibility worksheets to keep everyone on the same page. The Family & Tradition Questionnaire is designed to spark conversations · fill it out separately, then compare answers together.

Three Ways to Use This Kit

1. Print and write by hand.

There is something about putting pen to paper that makes planning feel real. Print the worksheets and keep them in a binder.

2. Fill it out together.

Set aside a quiet evening. Pour tea, open the kit, and work through one section at a time. The conversations are as valuable as the answers.

3. Share with your planner.

If you are working with a wedding planner, these worksheets give them a clear picture of your priorities, budget, and family dynamics.
